

## NEW RELEASE 2014

ANDREW JAMES ONG

**COMMON TO UNCOMMON**

THE BELIEF TO FULFIL YOUR TRUE DESTINY

Andrew survived four near-death traumas that dramatically transformed his life. He believes the answer to one's life transformation lies within each of us and the quality of your life vitally depends on the quality of the questions you constantly ask yourself: "Why am I here on earth?"; "Who do I want to become when I grow up?"; "What can I do to fire my dream and imagination?" *Common To Uncommon* is about living large. Readers begin a journey of self-discovery, learning to embrace delicately calibrated thinking patterns, techniques and skills to help them navigate through the minefields of life and to seize opportunities. Do you have an audacious dream? Do you believe you can achieve it? You can if you think you can. Truly, when you believe, you can turn from being common to uncommon, and fulfil your true destiny.

## ABOUT THE AUTHOR

From bashing through thick tropical rainforests during his army days to leading teams of business leaders in more than 35 countries, **ANDREW JAMES ONG's** burning desire has always been to uncover the *raison d'être* in individuals. With true grit honed in his early childhood, Andrew overcame numerous setbacks during his illustrious 21-year military career, including forgiving the perpetrators who tried to kill him in a grenade attack. Beyond the military, Andrew achieved the Million Dollar Round Table (MDRT) in less than two months, an exceptional feat in the insurance industry. He also led efforts to help tens of thousands of diabetics in the region to regain their health. Today, as a motivational speaker, life and executive coach, he empowers individuals and audiences in the region. Andrew lives in Singapore with his wife and three grownup children.

## PRAISE FOR COMMON TO UNCOMMON

*"Common to Uncommon challenges readers to face up to what could be their best and not compromise for the comfortable and convenient."*
