BOARDROOM MATTERS VOL. II

Corporate governance is a highly topical subject. It should concern anyone involved in a company since good corporate governance is important for corporate performance. This second volume takes off from where the first left off, collecting the articles published in *The Business Times* and *BT Invest* from 14 November 2014 to 16 October 2015. It covers key topics such as Company Act Reform, Regulations, Directorship, Directors in Deadlock Situations, Audit Committee, Board Risk Committee, Nominating Committee, Remuneration Committee, Strategy, Innovation, and finally Effective Boards. Each article in this collection stands on its own, and collectively reflect what the Singapore Institute of Directors consider to be the crucial dual roles of boards: ensuring conformance with the rules of the operating environment, and performance of the company in the longer term.
