## ABOUT THE ARTIST & AUTHOR

A student of fine arts and a firm believer in the indomitability of life, Adeline Yeo is unrelentingly inspired to weave her distinctive, artistic elegance with a sense of philosophical vigour, dramatically turning a plain canvas into a tapestry of vivacity. Every piece of her work is driven by a profound measure of passion, purpose and intentionality, adroitly capturing each inestimably precious life moment. Today, Adeline's artworks are highly sought after by industry leaders, top executives and astute art lovers. In addition, her select clientele base provides her a unique space to work on an array of special projects and commissions. These include works that personify beauty – living gardens, quiet meadows, lakes, beaches, sunrises and sunsets, waterfalls, the splendour of the sky, abundance of ocean – stunning works that demonstrate the power of beauty. To date, Adeline has held four successful exhibitions in Singapore.
